

AIR FORCE DIGITAL TRANSFORMATION

INDUSTRY DAY

CONNECTING THE AIR
FORCE TO INDUSTRY

A VIRTUAL EVENT
FEBRUARY 21, 2023
10:00-11:30AM EST

ABOUT THE EVENT:

You're invited to the Air Force Digital Transformation Project Industry Day. The USAF is transforming digital practices across its acquisition, operations, and sustainment enterprises and is building a digital innovation ecosystem consortium of industry partners. Named "Digital Research, Innovation, Validation, & Experimentation (DRIVE)," the consortium will be executed by the Ohio Aerospace Institute in collaboration with the Air Force Research Laboratory. This virtual Industry Day will provide insight into the project's strategic objectives and the consortium ecosystem that will support it.

THE CONSORTIUM FOCUSES ON:

- Fostering collaboration between USAF organizations, original equipment manufacturers, technology providers, academia, and other government agencies
- Managing the development and demonstration of processes, tools, and architectures supporting transformed acquisition and sustainment
- Identifying critical business, policy, and cultural constraints

WHO'S INVITED:

USAF and other government organizations and agency representatives, original equipment manufacturers, technology providers, and academia
